How much naughtier can things get? Annie and her husband Don are well into their new lifestyle of testing their sexual boundaries, but Annie surprises herself when she explores another level of erotic experimentation. She knows she'll be straying from her marriage into her deepest fantasy.

At first she's hesitant, but the temptation is too great. Once she's gotten a taste, she's faced with more dilemmas. Will she unleash her naughtiest desires and fantasies? Can she control them or will her search for sensuous pleasure control her?
