A dead CIA agent's fingerprints at a crime scene is the first link in a deadly chain! Item: A robbery at Chase Manhattan turns up a bizarre clue. The fingerprints of Warren Graves, CIA, deceased. Item: Margot Kidner has a list of ex-CIA agents with reason for revenge. How does she know that Nick Carter might be interested in her little list? Item: Larry Burke, Washington-based syndicated columnist, on ever government agency's favorite "enemies list" turns up dead.

Poisoned with a sophisticated drug simulating heart attack. Before long it's clear to Nick Carter "Killmaster". The most sensitive assassination in modern times is about to off without a hitch. Un he can get to Havana first. Peace in the Western Hemisphere will be a nice memory!
