I only care about success and I'll do whatever it takes to make it happen. That's why I hired Scarlett.

She's got enough curves to crash a car, and a terrible habit of leaving her top button undone so I can see down her shirt. She's supposed to make my job easier but all she's doing is making it harder for me to think.

Worse, no matter how focused I am, all my important meetings with these new clients are falling apart. Scarlett says the problem is I'm too tense... that I need to let out some steam. When I see her kneeling at my feet, I realize she's right. And I know JUST how she can help me relax. This is a standalone novella with a HEA and NO cheating! Penny Wylder writes just that-- wild romances. Happily Ever Afters are always better when they're a little dirty, so if you're looking for a page turner that will make you feel naughty in all the right places, jump right in and leave your panties at the door!
