King Christian had no idea that a visit from his old friend Elesar would bring terrifying news.

Their common enemy, who already tried to enslave the nations of Men and Elves, has been freed. Who freed him, remains a secret, but they both have to act hastily and gather their allies before the forces of Darkness take over Sillwith. It is up to Elesar to try and unite Men and Elves once more, but the task will not be an easy one, so he will need to seek help from his unusual friends, both old and new ones, who will help him with his quest.
