A Deadly Caper... The death toll rises as the War intensifies.

In England, teenage pilot, Tommy Stark marries his childhood sweetheart. Then he's tasked with assessing the capabilities of the planes being developed for the RFC, before re-joining his squadron. The young and mainly inexperienced pilots take part in a series of operations in which the use of new weaponry and tactics results in more deaths on both sides of the conflict.

Tommy's half-brother is implicated in a shocking food supply scandal. Best read in series order. His deep affection for squire's daughter, Grace is his only certainty as the bitter conflict threatens to strip the world of its innocence...
