Perspectives in Business Ethics offers a foundation in ethical thought, followed by a variety of perspectives on difficult ethical dilemmas in both the personal and professional context. This anthology encourages the reader to critically evaluate each perspective using his or her own personal ethical theory base. Instructors who favor an interactive, discussion-oriented approach to the ethics course will appreciate the different perspectives offered by the Hartman text. The contemporary topics and contexts will energize your classroom: international worker's rights, PETA's controversial anti-milk campaign, Stonyfield Farms' emphasis on good corporate citizenship and many more.
